

Academy Fence Company - OnGuard Fence – Powder Coding

OnGuard Fence Systems' state-of-the-art manufacturing facilities offer classic architectural powder coated finishes. Our beautiful fence components feature our exclusive exterior finish that has been engineered for maintenance free durability. Our finishes last a lifetime, protecting your investment and enhancing the value of your property.

Unlike some other brands, all OnGuard Fence Systems' rails and posts are powder coated after punching and notching, re-sealing all exposed surfaces with a protective powder coat finish for long lasting quality.

OnGuard's exclusive TGIC polyester powder coating technology provides twice the thickness and hardness as well as complete protection from fading and scratching. Our finishes have been put to the trial by undergoing 3,000 hours of humidity resistance and salt-spray testing are backed by our lifetime warranty.
